## THE STATE OF NEW HAMPSHIRE

THE POLLS WILL BE OPEN FROM 10:00 A.M. to 6:00 P.M.

To the Inhabitants of the Town of Deerfield in the County of Rockingham in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at Deerfield Town Hall in said Deerfield on Tuesday, the fourth day of March, next at 10:00 of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers and School District Officers for the year ensuing.

### THE FOLLOWING ARTICLES WILL BE TAKEN UP AT 8:00 P.M.

2. To raise such sums of money as may be necessary to defray Town charges for the ensuing year, and make appropriations of the same.

3. To see if the Town will authorize the Selectmen to hire money in anticipation of taxes.

4. To see if the Town will authorize the Selectmen to sell property acquired through tax collectors deeds.

5. To see if the Town will vote to authorize the Selectmen to sell the grave sites in the Old Center Cemetery.

6. To see if the Town will vote to raise and appropriate the sum of \$1,321.08 for Town Road Aid. The State to contribute \$8,807.23.

7. To see if the Town will vote to raise and appropriate the sum of \$50,000.00 for the purchase and development of a Landfill Site. \$30,000.00 of this amount to be drawn from the Revenue Sharing Fund established under the provisions of the State and Local Assistance Act of 1972.

8. To see if the Town will vote to authorize the transfer of \$30,000.00 from the Revenue Sharing Fund established under the provisions of the State and Local Assistance Act of 1972 for use in the purchase and development of a Landfill Site.

9. To see if the Town will vote to raise and appropriate the sum of \$9,000.00 to purchase a cab and chassis for use as a fire truck on condition the Deerfield Volunteer Fire Department provide an equal sum to adequately equip the vehicle.

10. To see if the Town will vote to authorize the Selectmen to establish reasonable fees for the rental of the town halls and kitchen and to extend to all charitable organizations a rate one-half of that established.

11. To see if the Town will vote to accept the rights of flowage and property at Pleasant Lake described in the deed received by the Town from Thomas Hodgson & Sons, Inc. and recorded in Book 2229 — Page 0060.

12. To see if the Town will vote to accept a parcel of land situated on Rt. 107 deeded to the town by Mrs. Madeline Lindsay for the general purpose of providing a site for a sports and athletic field for use by town residents and their invitees, with priority in use to the school district during the school year.

13. To see if the Town will vote to establish a Park and Recreation Commission consisting of seven members, three of whom are to be the members of the Veasey Park Commission and four of whom are to be appointed by the Board of Selectmen and to act on behalf of the Board of Selectmen in the management and planning of all parks and recreational areas within the town with the exception of Veasey Park which shall remain under the direct management and control of the Veasey Park Commission.

14. To see if the Town will vote to designate Perry Road from Nottingham Road to Cate Road as scenic under the provisions of RSA 253:17 & 18 for the purpose of protecting and enhancing the scenic beauty of Deerfield, and further, that the Selectmen of said Deerfield shall, regarding such road designated as scenic, file the appropriate request for suspension of specifications when making application to the Commissioner of Public Works and Highways for Town Road Aid Funds under RSA 241:7(1). (By Petition)

15. To see if the Town will vote to establish a Historic District Commission consisting of seven members, to be appointed by the Board of Selectmen, for the purpose of the preservation of structures and places of Historic and architectural value in the Town of Deerfield, under Provisions of RSA 31:89. Said Commission will consult with other commissions and groups in the Town, determine areas to be protected, and recommend zoning changes for the 1976 Town Warrant. (By Petition)

16. To see if the Town will authorize the plowing of snow on private roads wherever permanent residents are located. (By Petition)

17. To transact any other business that may legally come before said meeting.

Given under our hands and seal, this 15th day of February, in the year of our Lord nineteen hundred and seventy-five.

### REPORT OF THE SELECTMEN

This past year, several projects the Selectmen have been concerned with showed considerable progress. Such items as updating Tax Maps and Records has become fairly routine. However, Solid Waste Disposal, The Bi-Centennial, and the effect of current economic conditions upon Town management deserve special comment in this report.

After almost three years of study it has been concluded that for the immediate future, the best method of solid waste disposal is through the use of a sanitary landfill. Accordingly, a suitable area has been located and negotiations

for its purchase has commenced. The Committee members appointed to assist the Selectmen have performed an outstanding service for the community as their report, which follows, will show.

The Bi-Centennial Committee commenced its operations by selecting the property, so generously donated to the town by Mrs. Madeline Lindsay, as the Town's memorial to express Deerfield's recognition of the Nation's 200th birthday. With the expert assistance of an Ad Hoc Committee and numerous volunteers, the work has begun to transform the area into a soccer field and baseball fields.

Efforts continued to cut costs of running the Town in spite of runaway inflation. Road construction is particularly hard hit by such economic conditions resulting in less improved roads than we'd hoped for. Using TRA funds and other State monies, improvements were made to Ridge Rd. Hill, Nottingham Rd., Hattie Brown Rd., Coffeetown Rd., and Mount Delight Rd. Because South Rd. was reclassified as a Class Two Rd. by the General Court, we were not permitted to expend State monies to make badly needed repairs. The General Courts action was predicated on the basis that special Federal and State funds were to become available to rebuild the entire South Road. No such funds were forthcoming and temporary repairs were made using solely town funds.

In cooperation with the School Board, the first steps were taken to improve the insurance coverage for the town. Due to the complex nature of the many types of policies required, expert assistance was sought and has resulted in far more coverage for the town and school properties and personnel, at only slightly increased premiums. These efforts will continue with the aid of one of our own local insurance experts who has volunteered to serve as special insurance advisor to the Board of Selectmen; who is highly qualified in the insurance industry and is in no way affiliated with firms or companies underwriting town policies.

While taxes almost everywhere else increased, our tax rate decreased approximately twelve per cent. The principal reason for this was the very sizable increase in the assessed valuation of Public Service properties. Still, this did not include the much publicized transformer which will be picked up and added to the Utilities 1975 valuation.

Deerfield is very fortunate in having a wealth of talented citizens who have generously donated their time and energies to the benefit of the town and their efforts are greatly appreciated by the Board.

### **MUNICIPAL BUDGET COMMITTEE (MBC)**

The March 1973 Town Meeting voted to bring Deerfield under the Municipal Budget Act (MBA). The elections in March 1974 elected nine members to the committee, and one appointee each from the School Board and the Board of Selectmen, comprised the full Committee.

Under the MBA this committee is responsible for preparing and presenting the budgets to the Annual School Meeting, and the Annual Town Meeting.

This was the first year the MBC was in full function. The final budgets, as presented, came about after numerous meetings with the School Board, Selectmen, Department Heads, and, open meetings with the Townspeople. We feel that these budgets are a fair compromise between what is ideal, what is mandated, and, what the Town can afford.

This Committee made the suggestion that the Town publish a booklet for Town distribution containing pertinent Town regulations, political and civic dates, and, other general information not found in the Town Report. The Selectmen have included this item within their budget.

### **REPORT OF THE PLANNING BOARD**

Additional amendments, after a public hearing, were made to the Subdivision Regulations for the Town of Deerfield. These amendments chiefly pertained to updating the surveying requirements.

In March 1974, at the Annual Town Meeting, the Zoning and Land Use Ordinance was amended by the voters of the Town.

During 1974 ten minor subdivision plans were approved by the Planning Board, with one major subdivision awaiting approval. In addition, five transfers of property, non-building lots, were approved.

### **REPORT TO TOWNS**

All open burning when the ground is not covered with snow is controlled by the Town Forest Fire Warden in co-operation with the New Hampshire Forest Fire Service. Anyone wishing to kindle a fire out-of-doors when the ground is not covered with snow must have a written permit signed by the Town Forest Fire Warden. If the fire is to be kindled on land not owned by the person kindling the fire then he must have the permission of the landowner. No outdoor

fires can be kindled between 9 A.M. and 5 P.M. unless it is raining, without the additional approval of the District Forest Fire Chief.

The 1974 forest fire season was one of the worst in the past two decades. Woodlands in central and southern New Hampshire became so dry in mid August that the Governor and Council, upon the recommendation of the State Forester, enacted a partial woodlands closure in Sullivan, Cheshire, Hillsborough, Merrimack and Belknap Counties and a complete woodlands closure in Strafford and Rockingham Counties plus the Towns of Barnstead, Gilmanton and Alton in Belknap County. Through the excellent cooperation of the citizens of our State no major forest fire occurred at any time during the year.

## DEERFIELD SOLID WASTE DISPOSAL COMMITTEE REPORT

Deerfield is required by law to discontinue its open burning dump by July 1, 1975. The Deerfield Solid Waste Disposal Committee was created in April 1973 to investigate alternative methods of solid waste disposal and recommend to the Board of Selectmen a course of action for the town of Deerfield.

During 1974, our efforts were centered on the following areas:

1. Initiating and promoting among adjoining towns a regional plan to solve the solid waste problem.
  2. Establishing and maintaining contact with the following information sources as part of our continuing investigation of alternatives: State of New Hampshire Department of Health and Welfare; Southern New Hampshire Planning Commission; seven neighboring towns; Region 1 - Environmental Protection Agency; and several private solid waste disposal contractors.
  3. Conducting the engineering work required in connection with locating a suitable sanitary landfill site in Deerfield, securing preliminary approval from the New Hampshire Department of Health and Welfare, and designing the operation.
- We have recently concluded our study and have recommended that Deerfield establish a sanitary landfill operation for the disposal of its solid waste. This is an engineered method of disposing of solid wastes on land by spreading them in layers, compacting them to the smallest practical volume and covering them with soil each working day in a manner that protects the environment.

The operation of a sanitary landfill requires equipment capable of compacting solid waste and excavating and moving cover material. We have recommended that for the initial period (2-3 years) the operation should be contracted out. The purchase of equipment by Deerfield to meet both sanitary landfill needs and highway department needs should be considered after this initial period.

The town of Candia has been unsuccessful in its efforts to locate a suitable site for sanitary landfill. They have asked to "buy in" to Deerfield's sanitary landfill. We have studied this possibility and its impact on operating costs and capacity in the short and long run. We feel that a short term (2-3 years) arrangement would be mutually beneficial to both Candia and Deerfield, provided that:

1. It is required that the collection of Candia's solid waste be centralized in Candia and hauled in bulk to Deerfield; and,
2. Development costs, operating costs, and landfill depletion costs be charged out based on population.

There are two principal reasons for our selection of the sanitary landfill alternative. First, this was the most economical of the available alternatives — both in terms of initial investment as well as operating cost. Second, this was the most flexible approach. It does not represent a long term "locked in" solution such as incineration does. We feel there are strong possibilities of new developments and solutions to the solid waste disposal problem which will appear in the next few years. This flexible solution will permit Deerfield to take advantage of any new solutions the future holds which are more attractive, with a minimal sacrifice of non-recoverable costs.

### REPORT OF THE HEALTH OFFICER

The major development occurring in 1974, at least as far as the health officer is concerned, was the replacement of two sewage disposal systems in the Center, the source of numerous complaints from abutters. Through the eventual cooperation of all parties, the systems were completed to the satisfaction of local and state officials.

There were a total of 21 sewage disposal systems installed and approved, three of which were approved by state inspectors. Of the systems installed, 14 were for new homes and 7 were replacements for or repairs to existing systems.

Water sampling of Pleasant Lake was continued on a monthly basis through the summer and a meeting was held with the Pleasant Lake Association and the Water Commissioners to discuss the findings of the sampling program. Sampling was also conducted in Freese Pond by the health officer and in the Lamprey River by the Water Supply and Pollution Control Commission. Several of the samples collected by the State in the Lamprey; at the Raymond Line; south of Cotton Road; and at the James City bridge were high in bacterial contamination and will require further testing to determine the sources of the contamination.

The assistant health officer has been working closely with the Division of Public Health and the Division of Welfare to aid two families in town in need of Public assistance.

Early this year, proposed health regulations for the Town were submitted to the Selectmen for their approval. These regulations were intended to supplement those of the W.S. & P.C.C. The regulations are still under consideration by the Selectmen.

Three health complaints were filed and all were investigated. One order was issued for the correction of an open well. The situation was promptly corrected within thirty days by the owner.

Other activities included: meetings with the Selectmen; meeting with the State Entomologist; inspection of the concessions at the Deerfield Fair; and meetings with the State Division of Public Health and the W.S. & P.C.C.

Respectfully submitted,

FREDERICK J. McGARRY, P.E.  
Health Officer

## **RURAL DISTRICT HEALTH COUNCIL, INC.**

### **ANNUAL REPORT**

**January 1, 1974 - December 31, 1974**

The Rural District Health Council has experienced another year of growth and reorganization in 1974. The continued success of this program lies in the dedication of the agency personnel, and the capable professional staff assures the availability of quality care.

Skilled nursing service is still the major part of the program, and as more people become aware of the value of home care, demands for the service increase. These services are provided by Mrs. Barbara Drew, R.N. of Farmington, Mrs. Myrtle Walsh, R.N. of Milton and Mrs. Lucy Myers, R.N., B.S. of Deerfield. Mrs. Evelyn Therrien, R.N. of Barrington has also been working on a part-time basis. Mrs. Kathleen Hansen, RPT of Epping continues to provide physical therapy when ordered.

Mrs. Ardala Houle, R.N. of Rochester has been the Agency Coordinator and Clinic Supervisor. In this capacity she is the liaison between the Rural District Health Council, area hospitals and other community health agencies. She is also the leader of the clinic team.

As a result of the increased interest and services in the Maternal and Child Health Program, Miss Arlene Thorne, R.N. of Strafford is now employed full time as the agency Maternal and Child Health nurse ensuring more continuity of care in this specialty. Mrs. Bernadette Cameron, R.N. of Deerfield, a new member of our staff, has been organizing prenatal and parenting discussions which are conducted at each clinic. The Rural District Health Council works in cooperation with the N.H. State Department of Public Health in offering Well Child clinics for children from 0-6 years. Again this year, through the cooperation of the N.H. Bureau of Dental Public Health, a dental clinic was held for the children from 3-6 years who are enrolled in the Well Child Program. The agency has also worked cooperatively with the school nurses in the member towns to assure that the immunizations of all students are updated. The Rural District Health Council is an active participant in the Maternal and Infant Care program of the Strafford County Prenatal and Family Planning Association. The agency also works closely with the Exeter Area Family Planning Association. As a result of these changes, a more comprehensive program is now being offered by the Council.

Early in the year, the Rural District Health Council was approached by the Senior Citizen group in Farmington requesting an ongoing screening for its members. As a result, two times each month, agency nurses are present at the Senior Citizen Meeting Room in the Farmington Town Hall to check blood pressure, pulse, respiration, height, weight, urine and hemoglobin, and to do nutrition counseling. This has been greatly appreciated by the participating members. A similar program is being initiated in Northwood through the cooperation of the Northwood Plus 55 Club.

During October and November, successful Adult Screening clinics were held in Farmington and Northwood in cooperation with the Special Services of the Department of Public Health, local organizations, American Cancer Society, Portsmouth Rehabilitation Center, and Health professionals. These were open to any area person wishing to attend.

The office procedures of the Rural District Health Council are ably handled by Mrs. Norma Davis, Bookkeeper, and Mrs. Eleanor Eaton, Secretary, both of Farmington.

The Rural District Health Council is supported by the funds contributed by the member towns at an annual rate of \$1.00 per capita, state grants and fees for service. Anyone interested in the program or needing service is asked to contact the office in Farmington, P.O. Box 563, 6 South Main Street, Telephone 755-2989.

### **BUILDING DEPARTMENT**

Construction in 1974 continued on the upswing in Deerfield despite the high rate of bank interest.

We now have 21 new homes, and a large number of additions to existing homes.

Deerfield is growing and indications are it will continue to grow at a greater rate, if the mortgage interest drops in 1975.

**ANNUAL REPORT**

**BOARD OF ADJUSTMENT**

Appeals to the Board of Adjustment this year have taken a very definite drop from the previous year in which forty two were recorded.

Regular meetings of the Board of Adjustment are held the fourth Tuesday of each month unless called by the Chairman.

All appeals must be made to the Board on forms that have been adopted and made available by said Board. Forms may be obtained only from the Planning Board, Building Inspector or Board of Selectmen.

All appeal forms should be presented to the Clerk of the Board at least fifteen days prior to meeting date of any respective month to allow for advertising and posting time.

During the year 1974 the Clerk of the Board received and duly recorded eight regular applications of appeal and one application of appeal from an administrative decision.

All notices were duly published and posted by the Clerk of the Board as required by Law.

Eight regular open hearings held with the Board rendering the following decisions:

2 Appeal Cases—Approved

6 Appeal Cases—Denied

One open hearing held on Appeal from an administrative decision.

Appeal was denied.

### **THE DEERFIELD BICENTENNIAL COMMITTEE**

The year started with a survey of ideas from the members of the committee, as to how they would like to celebrate the Bicentennial in Deerfield. They voted to establish something of the permanent type rather than spend money on a parade, etc. Discussion followed and it was our wish to build a recreation area for the people of Deerfield.

In the process of looking for land, Mrs. P. R. Lindsey donated land to the town for recreational purposes. An ADHOC committee of five was appointed by the Selectmen at this time, to design the area and its usage, and to start it growing. A permanent commission could be established by the town at the annual town meetings.

In the early part of the year, to increase our funds, the Committee purchased pens, pins pennants, etc. to sell at public gatherings. We also ran a successful booth at the Deerfield Fair. We have been able to increase our funds thru sales and donations, and hope to finish the area this coming year.

We would like to thank everyone who has donated time and services to our project, especially the National Guard.

### **1974 DEERFIELD CONSERVATION COMMISSION ANNUAL REPORT**

As the year 1974 draws to a close, The DEERFIELD CONSERVATION COMMISSION wishes to offer this yearly report of activities and accomplishments.

The combined Town Roadside Clean Up Day and Earth Day was held on April 20th under the direction of Linda Tuttle. Students from the Geo. B. White school participated in the annual Poster Contest, sponsored by the Conservation Commission, to publicize this event.

Your commission was fortunate to obtain thru the University of New Hampshire Work Study Program, a student who was employed to research and plot the recreational and conservation potentials of The Agnes B. McNeil Conservation Area. The credentials posted by Timothy J. Ulrich list a Resource Management major and courses in Land Management and Planning etc. The cost to the Town of Deerfield on an hourly basis is approximately Sixty cents (\$.60) per hour.

While planning and discussing various avenues of activity with regard to the most beneficial use of Mr. Ulrich's talents and knowledge, it was brought to the attention of your Conservation Commission that The Agnes B. McNeil

conservation Area had never been properly surveyed and recorded. This then became the first item on the agenda. After much negotiating and thru the generous offer by David Sidmore, it was decided that together with Burton McNeil, Tim Ulrich would assist Dave Sidmore who would complete the survey at a cost to the Town of Deerfield of One Hundred Dollars (\$100.00) for the Sixty Five (65) tract. This truly is a most nominal sum for this work.

It was deemed advisable to consult the County Forester and with Mr. Peter Brewitt, Conservation Commission members and Tim Ulrich several field trips were made to the area. The recommended reports by the County Forester were as follows:

1. If, in following good Forestry Management techniques, the practice of selective cutting were employed, the maximum yield would be approximately 80,000 board feet. It was voted not to do any commercial cutting at this time.
2. The necessity of employing Pruning and Thinning procedures to promote faster and better future growth of the timber stands.
3. Utilizing the Culling method of woodlot management in conjunction with Pruning and Thinning procedures.
4. That the Conservation Commission consider the establishing of a Nature Trail in the lower end of the Area.

It was at this point that your Conservation Commission requested the representative from the Soil Conservation Service to meet with the Conservation Commission members of the Town of Deerfield. After several meetings with this representative and the County Foresters, it was voted to establish an Educational Nature Study Trail. This then became an accomplished fact, Maps and informational material will be on display at Town Meeting.

Preliminary discussions are underway for the consideration of the establishing of a dug well or water hole on the property for fire protection.

### REPORT OF THE CIVIL DEFENSE AGENCY FOR 1974

First, I would like to report that the use of Matching Funds for emergency equipment is very difficult for small towns today because we do not have a heavy duty reserve truck. Also the quantity and quality of surplus equipment is very poor. Because of these restrictions most equipment must be purchased new.

The equipment of the Civil Defense Agency is available for any department or anyone in time of an emergency situation. The equipment is stored and maintained by the Fire Dept. in the Fire House.

Some of the equipment available is as follows:

- 1 - 5000 watt generator hooked permanently into the Fire House in case of loss of electrical power, this will prevent freezing of fire equipment and still have radio communication for an emergency;
- 1 - 3000 watt portable generator and lighting system.
- 1 - Scott Air-Pak and 2 - Suv-VIV-Air Paks, self contained breathing units;
- 1 - Emergency K-12 rescue saw.
- 1 - Smoke ejector, 1 - resuscitator, 2 - First Aid kits;
- 1 - 10 ton Poto Power Rescue kit, 2 sets of aluminum fire suits for fire rescue work;
- 1 - Small rescue van with a quantity of fowl weather gear and small emergency tools;
- 2 - Truck Cab & Chassis which the fire dept. have built into tank trucks. Also blankets & stretchers for emergency work;

1 - Base radio set in communication with the interstate emergency mutual aid system. This radio has means of extra frequencies for a local government frequency in the future. Papers have already been made out and signed for the government frequency.

If there are any questions about Civil Defense work I would be glad to answer them. Thank You.

It has been my hope for the past three years, to be allowed to be at school more than one day per week, (which is my present schedule). I also hopefully anticipate being brought up to the pay scale of other School Nurses in our Supervisory Union, as I rank lowest in salary.

## REPORT OF THE SCHOOL BOARD

The school was faced with a new kind of crisis this year. With the resignation of Richard Gilson, and Joe Stone not running for re-election, the School Board had no choice but to make me chairman. The transition from being in charge of transportation to chairman in one year was an often frustrating but rewarding experience.

During the summer months the Board made a salary adjustment for the cook which had been overlooked in the past few years. We have also put in the budget a \$6.00 a day raise for the bus drivers. They have not had a raise in several years.

The Concord Clinic has been operating since September. So far, the second, third, and fourth graders have been tested. Several students have been found who need help.

Also during the summer, playground equipment was built and installed at no expense to the town. We thank three Seabees from Manchester, parents and students from the 7th, 8th, and 9th grades, as well as Mr. Lemire of the Parks and Recreation Department of Manchester for the donation of their time and equipment to accomplish this.

Music and Art programs have been initiated in the school this year. Both programs are very successful thus far. Also, we have a more developed sports program this year, from 5th to 8th grades, under the direction of Mr. Pat Healey. The children compete with each other in intramural teams for indoor hockey. Seventh and eighth grade soccer teams competed with surrounding towns.

A high school committee was formed to update our secondary school situation. Other districts were contacted to determine what alternatives Deerfield can seek. For the next several years, there is no danger of finding ourselves without a place to send our high school students. In the future it may become necessary to enter into a long term contract with a particular school or to build a regional school.

There are many things needed in our schools; some at very little cost, some at a greater cost. We all have a tendency to watch our pocketbooks when budget time comes around, which is good, but at the same time we must think about what is best for our children. There have been several proposals to meet the needs of our students. One would be a fourteenth teacher to keep the class size small and allow the teacher to deal with the learning problems more adequately. A second proposal deals with a learning disabilities instructor capable of helping those students who have difficulty in a normal school environment. Such a person may allow those students going to Easter Seals and other special educational institutions to return to the George B. White. Others feel a third alternative is best in a reading specialist. Many children are affected with a reading problem at George B. White which is reflected in every subject area at every level.

When your own children are successful in school, it is difficult to visualize a child struggling to keep up and suffering the frustration that goes along with the inability to cope with an undiagnosed problem.

ALICE CASH,  
Chairman

## REPORT OF THE SUPERINTENDENT OF SCHOOLS

While I have been associated with the Deerfield School District for several years, this is my first report as Superintendent of Schools.

The latter part of the Spring term was given over to the usual activities involved with the closing of another year. It was also a period in which we were quite busy with the organization staffing and the relocation of the new supervisory union office. Mrs. Sylvianne Martel, who has worked with me for the last several years as my secretary has remained in that capacity and proved to be of invaluable assistance in making the transition. The new bookkeeper and payroll clerk are Mrs. Claire Butler and Miss Louise Fanny respectively. Mr. Edmond Duchesne is the new Business Administrator. The office was moved from 100 Granite Street in Hooksett to Pembroke Street in Pembroke during the last week of June.

As soon as the office was relocated the task of restaffing the schools began in earnest. This was quite a formidable task this time as we hired several new teachers in Deerfield and over forty in the five school districts that comprise Supervisory Union 53. As the personnel are the heart of any organization, we spent a great deal of time interviewing applicants in order that we might hire the best people.

Since the beginning of school, we have been occupied with normal activities that are with us during every school year. We have continued to refine the accounting systems and the budget preparation system in order that we might have more data to better account for the expenditures and efficient use of tax monies.

There are many areas wherein we need to improve our performance such as teacher evaluation, communication, curriculum revision, special services, student personnel services, etc. The longer that we are able to work together as a unit, the better will be our chances for success in the above-mentioned areas.

It is essential that we not lose sight of our basic duty to teach the essential skills of Reading, Writing and Arithmetic.

We must teach these skills in relation to the complex society that children will be entering; and must update the curriculum and teaching methods to keep pace with the ever changing requirements of children if they are to live and compete in our fluid society.

We must help children to become more independent learners. We must be more concerned with helping them to learn the thought process in order that they might be better equipped to solve occupational and personal problems. Children today are going to be faced with a society that will change even more rapidly than the one that we are presently living in if that is possible to even imagine. If they are going to be able to cope with this type of rapid change they must be independent and secure. The idea that the teaching of the thought process is one of the basic responsibilities of education is not a thought that has been brought to us by the progressive educational movement rather it is an idea as old as the Classical Greek and Roman Educators.

It is most essential that we not lose sight that we must help the individual child to learn. All too often it is too easy to work with children in groups, thereby, losing sight of the needs of the individual. This is not only a problem in Education. It is a problem in American society. We constantly talk about the rights and needs of the individual, and yet we seem to be constantly moving toward a society that is extremely impersonal, and the individual is lost in the masses.

In closing, I would like to thank the Deerfield School Board, the George B. White staff and the citizens of Deerfield for all that they have done for the Deerfield children.

GERALD A. CROTEAU  
Superintendent of Schools

### **PRINCIPAL'S REPORT**

It is always pleasant to report progress. I feel progress is being made in both educational programs and community participation.

The readiness program has proven highly successful. The opportunity given to children to develop and mature within this structured program is very important to the children involved. We will have well prepared, happy and less frustrated children in later years. This should mean less failures in the later grades. Mrs. Ramona Stevens and several interested parents have done an excellent job in setting up this new classroom.

Our new science program for the seventh and eighth graders has proven highly successful and interesting. This new lab oriented program allows students to work at their own pace and level. The program uses the scientific approach by allowing the students to experiment and record the results. All students become involved in the new learning experience.

The library has become a center of learning in our school. Its use has increased. Its ready source of reading and research materials is often over taxed. It seems good to see so many students using these facilities.

Our new music program is going good. Having all grade levels exposed to music is certainly a step in the right direction. Our new school chorus and band is a delight to listen to. The band played at the Christmas Concert and received praise from those attending.

The art program is excellent. All grade levels are participating in the program. All phases of art are being introduced and the interest is high. Some of the art work produced is excellent quality. Although the art teacher is paid for one days work, she volunteers another day in order to cover all grades 1-8.

The New Hampshire School Volunteer Program was introduced into our school this year. This program, under the direction of Mrs. Linda Tuttle, brings many parents and other community people into the school each day. These people are screened and placed in the classroom or library to work with students. The volunteer works directly under the supervision of a teacher or librarian. Volunteers tutor, correct papers, make nature trails, and assist with physical education programs.

A new and vital part of our school program is the introduction of new sports and Physical Education. Mr. Healey has given a great deal of his time to this program. We now have a new soccer team, in full uniform, playing in the

local league. Mr. Healey has introduced indoor hockey and organized intramural teams grades 5-8. Other aspects of this program are carried on each afternoon (last period) and after school.

This program has developed a new spirit in our school and given an added incentive to many students to do better academically.

The cooperation and help of our excellent PTO cannot be overlooked. They have contributed generously to school activities. This organization has help improve our play area adding new equipment.

I would like to thank the school board for their fine cooperation. Their interest and concern in improving education in the school is greatly appreciated by everyone.
